

RED GRANDIS

FSC Pure 100%

FAS One Face and Better Grade

The Urufor mill produces a FAS1F and better grade, based on NHLA grading rules, which will provide the user with long, clear cuttings, best suited for high quality furniture, interior millwork, windows, doors kitchen cabinets and solid wood mouldings.

The FAS face yields at least 83% clear face cuttings over the entire surface of the board. Any clear face cutting will have a minimum dimension of 4" wide x 5' long, or 3" wide x 7' long.

The No. 1 Common face yields at least 66% clear face cuttings over the entire surface of the board. Any clear face cutting will have a minimum dimension of 4" wide x 2' long, or 3" wide x 3' long.
