European Poplar Plywood with HDF outer layers

Versatility that challenges creativeness

Product description:

Standard construction with 2.0 mm HDF outer layers for painting and laminating or 3. mm HDF outer layers for application of Thermally Fused Laminates.

Lightweight - 3/4" x 49" x 97" Panels with 2 mm HDF outer layer weigh approximately 75 lbs.

HDF outer layers for a smooth, void free surface perfectly suited for overlay of foils, melamine, HPL or decorative hardwood veneers.

Poplar core veneer is from sustainably managed plantations in Spain and France.

Balanced panel constructions with premium single piece poplar core veneers for exceptional bond quality, flatness and machining properties.

Core veneers are dried to 6%-8% moisture content in mechanical dryers prior to platform assembly.

Formats

Dimensions (") 48.5 x 96.5 | 48.5 x 108.5 | 48.5 x 120.5 | 60.5 x 96.5 | 60.5 x 120.5

Technical features

	Values	Standard
Density (Lb/ft ³)	32.77	EN 323
MOE - Modulus of elasticity - long grain (N/mm ²)	6300	EN 310
Resistance to bending - long grain (N/mm ²)	59	EN 310
MOE - Modulus of elasticity - short grain (N/mm ²)	3000	EN 310
Resistance to bending - short grain (N/mm ²)	29	EN 310
Moisture content (%)	6-14	EN 322

Wood is a natural material and as such is unique in appearance & so often has naturally occurring variations in colour, texture and grain pattern. The photographic reproductions used simply provide an example of a product's appearance & may not be representative of the full range of colour, texture and grain variations. The data provided in this product specification should be used solely as a guide & is of no contractual value. It is the responsibility of the acquirer to determine if the product is suitable for the required application, to ensure that both the place & form of use are appropriate & in accordance with the manufacturer's requirements & recommendations & is in line with current regulations.
